Invention

“Bear in mind that the wonderful things that you learn in your schools are the work of many generations, produced by enthusiastic effort and infinite labour in every country of the world. All this is put into your hands as your inheritance in order that you may receive it, honour it, and add to it, and one day faithfully hand it on to your children.”

**- Albert Einstein
1879-1955**

Invention

Văn hào Tolstoy từng nói: “Trong con người vốn có những nguồn sáng tạo vô tận. Nếu khác đi thì đã không thành người.”

**- Leo Tolstoy
1828-1910**

CHÌA KHÓA THÀNH CÔNG

“No matter what you want to do with your life – I guarantee that you’ll need an education to do it. You want to be a doctor, or a teacher, or a police officer? You want to be a nurse or an architect, a lawyer or a member of our military? You’re going to need a good education for every single one of those careers. You can’t drop out of school and just drop into a good job. You’ve got to work for it and train for it and learn for it.”

CHÌA KHÓA THÀNH CÔNG

We need every single one of you to develop your **talents, skills and intellect** so you can help solve our most difficult problems. If you don't do that – if you quit on school – you're not just quitting on yourself, **you're quitting on your country.**

And even when you're struggling, even when you're discouraged, and you feel like other people have given up on you – don't ever give up on yourself. **Because when you give up on yourself, you give up on your country.**

EDUCATION

- 1 FINLAND
- 2 SOUTH KOREA
- 3 CANADA
- 4 SINGAPORE
- 5 JAPAN
- 6 SWITZERLAND
- 7 ESTONIA
- 8 UNITED KINGDOM
- 9 IRELAND
- 10 NETHERLANDS

Finland heads this category for good reason (have a look at the sidebar on the previous page), but South Korea isn't far behind. The Asian nation is legendary for the quality of its schooling and the fervor of its students, who are among the likeliest in the world not only to complete their secondary education but then to go on and acquire college degrees. (South Korean parents are notorious for spending huge sums of money on test-preparation courses for their kids.) It's hard to imagine now, but back in the 1960s, South Korea's national wealth was on par with Afghanistan's. Today, it's one of the world's richest nations, in large part thanks to its focus on education.
